

Is Your Child Starting Kindergarten?

DID YOU KNOW YOUR CHILD NEEDS VACCINES?

Your child needs two vaccines starting at age 4 (kindergarten entry):

- The **Tdap-IPV vaccine** to protect against tetanus, diphtheria, pertussis (whooping cough), and polio
- The **MMRV vaccine** to protect against measles, mumps, rubella, and varicella (chickenpox)

These vaccines are free.

Call to book your child's immunization appointment today!

- Contact your local health unit*
- Contact your health care provider†

* Health units are called public health units, community health centres, or primary care homes in some areas of B.C.

† Family doctors and nurse practitioners provide immunizations in some areas of B.C.

Vaccines are a healthy choice for your child. They protect your child's health and the health of their classmates.
