

Kids Boost Immunity represents a new approach to learning by **connecting local** grassroots education **directly to global** disease prevention.

Help your students understand what it means to be a 'global citizen' by being part of a social cause that educates kids and helps save lives.

MORE ABOUT KIDS BOOST IMMUNITY

Kids Boost Immunity is a national education and advocacy initiative administered through the Public Health Association of British Columbia, with financial support from the BC Ministry of Health and the Public Health Agency of Canada. The program is coordinated through the British Columbia Centre for Disease Control.

BC Centre for Disease Control
An agency of the Provincial Health Services Authority

Kids Boost Immunity would not have been possible without the longstanding support of British Columbia's Immunization Promotions Working Group (IPWG). The IPWG membership includes the BC Ministry of Health, Public Health Association of BC, BC Centre for Disease Control, First Nations Health Authority, Fraser Health, Vancouver Coastal Health, Interior Health, Vancouver Island Health, Northern Health and the BC Pharmacy Association.

Kids Boost Immunity relies on other funders and partners to help purchase UNICEF vaccines earned by students.

ATTENTION TEACHERS!

FREE RESOURCE

for Canadian science, health and social studies teachers for grades 5-12

Where **Local Learning** Meets **Global Giving**

Kids Boost Immunity (KBI) is a free online learning resource for Canadian students that pairs local learning with a global reward: vaccines for children in need through UNICEF.

KBI is brimming with carefully curated lessons linked to science, health or social studies curricula on a wide range of topics including:

- Germs and infections
- The immune system
- Vaccines
- Antibiotics
- The spread of infectious disease & outbreaks
- Global inequality in health and the role of NGOs
- Evaluating online information sources

sample question

HOW IT WORKS

After completing a lesson, students use a computer or their own device (e.g. smart phone) to take quizzes to earn vaccines in support of UNICEF Canada. **The more quizzes a student completes, the more vaccines they earn for kids in another part of the world through UNICEF.**

It's that simple!

Teachers can sign-up their class by visiting

► www.kidsboostimmunity.com

Learning outcomes are assessed through team and individual leaderboards that track student achievement. KBI encourages community participation along with a fun and friendly sense of competition between classes and schools across the country!

WHAT TEACHERS ARE SAYING ABOUT KIDS BOOST IMMUNITY:

“ My students felt like global citizens learning about bacteria and viruses in class, then completing a quiz to earn a vaccine for a child in a developing country. Thank you for the opportunity to make a small difference in a big way. ”

“ It was fun earning vaccines with the class, and it helped the students learn the curriculum. It also resulted in good discussions about health care in developing countries. ”

“ They were able to work at their own pace and delve into subject material at any time. Many were keen to work after hours as well as during class time. ”

Why not make a local and a global impact to your lessons in a fun and engaging way?
